SECTION 1: Identification of the substa	nce/mixture and of the company/undertaking
1.1 Product identifier	
Trade name	Methyl 4-hydroxybenzoate
Stock number: CAS Number:	A14289, L01132
EC number:	202-785-7
1.2 Relevant identified uses of the substance	or mixture and uses advised against.
1.3 Details of the supplier of the safety data s Manufacturer/Supplier:	sheet Alfa Aesar GmbH & Co.KG
Manufacturer/Supplier.	A Johnson Matthey Company
	Zeppelinstr. 7b
	76185 Karlsruhe / Germany Tel: +49 (0) 721 84007 280
	Fax: +49 (0) 721 84007 300 Email: tech@alfa.com
	Email: tech@alfa.com www.alfa.com
Informing department:	Product safety Tel + +049 (0) 7275 988687-0 Carechem 24: +44 (o) 1235 239 670 (Multi-language emergency number)
1.4 Emergency telephone number:	Carechem 24: +44 (o) 1235 239 670 (Multi-language emergency number) Poison Information Center Mainz
	www.giftinfo.uni-mainz.de Telephone: +49(0)6131/19240
SECTION 2: Hazards identification	
2.1 Classification of the substance or mixture	e
Classification according to Regulation (EC) No 1272/2008	The substance is not classified as hazardous to health or the environment according to the CLP regulation.
Classification according to Directive 67/548/	
EEC or Directive 1999/45/EC	Not applicable
Information concerning particular hazards for human and environment:	
for human and environment: Other hazards that do not result in	Not applicable
classification	No information known.
2.2 Label elements	
Labelling according to Regulation (EC) No	Netersta
1272/2008 Hazard pictograms	Not applicable Not applicable
Signal word	Not applicable
Hazard statements 2.3 Other hazards	Not applicable
2.3 Other hazards Results of PBT and vPvB assessment	
PBT:	Not applicable.
vPvB:	Not applicable.
SECTION 3: Composition/information o	n ingredients
3.1 Substances	-
CAS# Designation:	99-76-3 Methyl 4-hydroxybenzoate
Identification number(s):	
EC number:	
	202-785-7
SECTION 4: First aid measures	202-785-7
SECTION 4: First aid measures 4.1 Description of first aid measures	
SECTION 4: First aid measures	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice.
SECTION 4: First aid measures 4.1 Description of first aid measures	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly.
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice.
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After eye contact After swallowing	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly.
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After eye contact After swallowing 4.2 Most important symptoms and effects,	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment.
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After eye contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor.
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After eye contact After swallowing 4.2 Most important symptoms and effects,	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment.
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After eye contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available.
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After eye contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available.
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available.
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After skin contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents 5.2 Special hazards arising from the	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available.
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available.
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents 5.2 Special hazards arising from the substance or mixture	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available.
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After skin contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents 5.2 Special hazards arising from the	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available. CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Wear self-contained breathing apparatus.
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents 5.2 Special hazards arising from the substance or mixture 5.3 Advice for firefighters	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available. CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents 5.2 Special hazards arising from the substance or mixture 5.3 Advice for firefighters	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available. CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Wear self-contained breathing apparatus. Wear full protective suit.
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents 5.2 Special hazards arising from the substance or mixture 5.3 Advice for firefighters Protective equipment: SECTION 6: Accidental release measures	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available. CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Wear self-contained breathing apparatus. Wear full protective suit.
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents 5.2 Special hazards arising from the substance or mixture 5.3 Advice for firefighters Protective equipment:	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available. CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Wear self-contained breathing apparatus. Wear full protective suit.
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After eye contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents 5.2 Special hazards arising from the substance or mixture 5.3 Advice for firefighters Protective equipment: SECTION 6: Accidental release measure 6.1 Personal precautions, protective equipment and emergency procedures	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available. CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Wear self-contained breathing apparatus. Wear full protective suit. es Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After skin contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents 5.2 Special hazards arising from the substance or mixture 5.3 Advice for firefighters Protective equipment: SECTION 6: Accidental release measures 6.1 Personal precautions, protective	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available. CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Wear self-contained breathing apparatus. Wear full protective suit. Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Do not allow product to reach sewage system or water podies.
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After eye contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents 5.2 Special hazards arising from the substance or mixture 5.3 Advice for firefighters Protective equipment: SECTION 6: Accidental release measure 6.1 Personal precautions, protective equipment and emergency procedures 6.2 Environmental precautions:	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available. CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Wear self-contained breathing apparatus. Wear full protective suit. es Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Do not allow material to be released to the environment without proper governmental permits.
SECTION 4: First aid measures After inhalation After skin contact After skin contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents 5.2 Special hazards arising from the substance or mixture 5.3 Advice for firefighters Protective equipment: SECTION 6: Accidental release measures 6.1 Personal precautions, protective equipment and emergency procedures 6.2 Environmental precautions: 6.3 Methods and material for containment	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available. CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Wear self-contained breathing apparatus. Wear full protective suit. es Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Do not allow material to be released to the environment without proper governmental permits. Do not allow product to reach sewage system or water bodies.
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After eye contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents 5.2 Special hazards arising from the substance or mixture 5.3 Advice for firefighters Protective equipment: SECTION 6: Accidental release measure 6.1 Personal precautions, protective equipment and emergency procedures 6.2 Environmental precautions: 6.3 Methods and material for containment and cleaning up: Prevention of secondary hazards:	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available. CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Wear self-contained breathing apparatus. Wear full protective suit. es Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Do not allow material to be released to the environment without proper governmental permits. Do not allow product to reach sewage system or water bodies. Do not allow to enter the ground/soll. Collect mechanically. No special measures.
SECTION 4: First aid measures After inhalation After skin contact After skin contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents 5.2 Special hazards arising from the substance or mixture 5.3 Advice for firefighters Protective equipment: SECTION 6: Accidental release measures 6.1 Personal precautions, protective equipment and emergency procedures 6.2 Environmental precautions: 6.3 Methods and material for containment	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available. No further relevant information available. CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Wear self-contained breathing apparatus. Wear full protective suit. es Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Do not allow material to be released to the environment without proper governmental permits. Do not allow to enter the ground/soil. Collect mechanically. No special measures required. See Section 7 for information on safe bandling
SECTION 4: First aid measures 4.1 Description of first aid measures After inhalation After skin contact After eye contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents 5.2 Special hazards arising from the substance or mixture 5.3 Advice for firefighters Protective equipment: SECTION 6: Accidental release measure 6.1 Personal precautions, protective equipment and emergency procedures 6.2 Environmental precautions: 6.3 Methods and material for containment and cleaning up: Prevention of secondary hazards:	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available. CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Wear self-contained breathing apparatus. Wear full protective suit. es Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Do not allow material to be released to the environment without proper governmental permits. Do not allow product to reach sewage system or water bodies. Do not allow to enter the ground/soll. Collect mechanically. No special measures.
SECTION 4: First aid measures After inhalation After skin contact After skin contact After skin contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents 5.2 Special hazards arising from the substance or mixture 5.3 Advice for firefighters Protective equipment: SECTION 6: Accidental release measure 6.1 Personal precautions, protective equipment and emergency procedures 6.2 Environmental precautions: 6.3 Methods and material for containment and cleaning up: Prevention of secondary hazards: 6.4 Reference to other sections	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available. CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Wear self-contained breathing apparatus. Wear full protective suit. es Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Do not allow material to be released to the environment without proper governmental permits. Do not allow material to be released to the environment without proper governmental permits. Do not allow to enter the ground/soil. Collect mechanically. No special measures required. See Section 7 for information on personal protection equipment.
SECTION 4: First aid measures After inhalation After skin contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents 5.2 Special hazards arising from the substance or mixture 5.3 Advice for firefighters Protective equipment: SECTION 6: Accidental release measure 6.1 Personal precautions, protective equipment and emergency procedures 6.2 Environmental precautions: 6.3 Methods and material for containment and cleaning up: Prevention of secondary hazards: 6.4 Reference to other sections SECTION 7: Handling and storage	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available. CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Wear self-contained breathing apparatus. Wear full protective suit. es Wear protective equipment. Keep unprotected persons away. Ensure adequate vertilation Do not allow material to be released to the environment without proper governmental permits. Do not allow material to be released system or water bodies. Do not allow to enter the ground/soil. Collect mechanically. No special measures required. See Section 7 for information on parsonal protection equipment.
SECTION 4: First aid measures After inhalation After skin contact After skin contact After skin contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents 5.2 Special hazards arising from the substance or mixture 5.3 Advice for firefighters Protective equipment: SECTION 6: Accidental release measure 6.1 Personal precautions, protective equipment and emergency procedures 6.2 Environmental precautions: 6.3 Methods and material for containment and cleaning up: Prevention of secondary hazards: 6.4 Reference to other sections	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available. CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Wear self-contained breathing apparatus. Wear full protective suit. es Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Do not allow material to be released to the environment without proper governmental permits. Do not allow to enter the ground/soil. Collect mechanically. No special measures required. See Section 7 for information on safe handling See section 7 for information on safe handling See section 7 for information on safe handling See section 13 for information on disposal.
SECTION 4: First aid measures After inhalation After skin contact After skin contact After skin contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents 5.2 Special hazards arising from the substance or mixture 5.3 Advice for firefighters Protective equipment: SECTION 6: Accidental release measures 6.1 Personal precautions, protective equipment and emergency procedures 6.2 Environmental precautions: 6.3 Methods and material for containment and cleaning up: Prevention of secondary hazards: 6.4 Reference to other sections SECTION 7: Handling and storage 7.1 Precautions for safe handling	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available. CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Wear self-contained breathing apparatus. Wear full protective suit. es Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Do not allow material to be released to the environment without proper governmental permits. Do not allow material to be released to the environment without proper governmental permits. Do not allow material to be released to the environment without proper governmental permits. Do not allow material to be released to the environment without proper governmental permits. Do not allow material to be released to the environment without proper governmental permits. Do not allow material to be released to the environment without proper governmental permits. Do not allow material to be released to the environment without proper governmental permits. Do not allow material to be released to the environment without proper governmental permits. Do not allow for enter the ground/soil. Collect mechanically. No special measures required. See Section 7 for information on personal profection equipment. See Section 13 for information on disposal.
SECTION 4: First aid measures After inhalation After skin contact After swallowing 4.2 Most important symptoms and effects, both acute and delayed 4.3 Indication of any immediate medical attention and special treatment needed SECTION 5: Firefighting measures 5.1 Extinguishing media Suitable extinguishing agents 5.2 Special hazards arising from the substance or mixture 5.3 Advice for firefighters Protective equipment: SECTION 6: Accidental release measure 6.1 Personal precautions, protective equipment and emergency procedures 6.2 Environmental precautions: 6.3 Methods and material for containment and cleaning up: Prevention of secondary hazards: 6.4 Reference to other sections SECTION 7: Handling and storage	Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist. Seek immediate medical advice. Instantly wash with water and soap and rinse thoroughly. Seek immediate medical advice. Rinse opened eye for several minutes under running water. Then consult doctor. Seek medical treatment. No further relevant information available. No further relevant information available. CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. If this product is involved in a fire, the following can be released: Carbon monoxide and carbon dioxide Wear self-contained breathing apparatus. Wear full protective suit. es Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Do not allow material to be released to the environment without proper governmental permits. Do not allow to enter the ground/soil. Collect mechanically. No special measures required. See Section 7 for information on safe handling See section 7 for information on safe handling See section 7 for information on safe handling See section 13 for information on disposal.

Revision: 29.10.2008

Printing date 01.07.2013	Revision: 29.10.20
rade name Methyl 4-hydroxybenzoate	
7.2 Conditions for safe storage, including an Storage	
Requirements to be met by storerooms and containers:	No special requirements.
Information about storage in one common storage facility:	Store away from oxidizing agents.
Further information about storage conditions:	Keep container tightly sealed. Store in cool, dry conditions in well sealed containers.
7.3 Specific end use(s)	No further relevant information available.
SECTION 8: Exposure controls/person	al protection
Additional information about design of technical systems:	Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocion of at least 100 feet per minute.
8.1 Control parameters Components with critical values that require monitoring at the workplace: Additional information:	e Not required. No data
8.2 Exposure controls Personal protective equipment General protective and hygienic measures	The usual precautionary measures should be adhered to in handling the chemicals. Keep away from foodstuffs, beverages and food. Instantly remove any soiled and impregnated garments. Wash hands during breaks and at the end of the work. Maintain an ergonomically appropriate working environment.
Breathing equipment: Protection of hands:	Maintain an ergonomically appropriate working environment. Use breathing protection with high concentrations. Check protective gloves prior to each use for their proper condition. The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.
Material of gloves Penetration time of glove material Eye protection: Body protection:	Impervious gloves Not determined Safety glasses Protective work clothing.
SECTION 9: Physical and chemical pro	perties
9.1 Information on basic physical and chem General Information Appearance:	
Form: Colour:	Powder White
Smell: Odour threshold:	Odourless Not determined.
pH-value (2,5 g/l) at 20 °C:	5,8
Change in condition Melting point/Melting range: Boiling point/Boiling range: Sublimation temperature / start:	126-127 °C Not determined Not determined
Flash point: Inflammability (solid, gaseous) Ignition temperature:	Not applicable Not determined. >600 °C
Decomposition temperature: Self-inflammability:	Not determined Not determined.
Danger of explosion: Critical values for explosion:	Product is not explosive.
Lower: Upper:	Not determined Not determined
Steam pressure: Density	Not applicable. Not determined
Relative density Vapour density	Not determined. Not applicable.
Evaporation rate Solubility in / Miscibility with	Not applicable.
Water at 25 °C: Partition coefficient (n-octanol/water):	2,5 g/l Not determined.
Viscosity: dynamic:	Not applicable.
kínematic: 9.2 Other information	Not applicable. No further relevant information available.
SECTION 10: Stability and reactivity	
10.1 Reactivity	No information known.
10.2 Chemical stability Thermal decomposition / conditions to be	Stable under recommended storage conditions.
avoided: 10.3 Possibility of hazardous reactions 10.5 Incompatible materials: 10.6 Hazardous decomposition products:	No decomposition if used and stored according to specifications. No dangerous reactions known Oxidizing agents Carbon monoxide and carbon dioxide
SECTION 11: Toxicological information 11.1 Information on toxicological effects	
11.1 Information on toxicological effects Acute toxicity:	No effects known.
11.1 Information on toxicological effects Acute toxicity: LD/LC50 values that are relevant for classifi Oral LD50 2280 mg/kg (rat)	cation:
11.1 Information on toxicological effects Acute toxicity: LD/LC50 values that are relevant for classifi Oral LD50 2280 mg/kg (rat) Skin irritation or corrosion: Eye irritation or corrosion:	cation: Generally the product does not irritate the skin. May cause irritation
11.1 Information on toxicological effects Acute toxicity: LD/LC50 values that are relevant for classifi Oral LD50 2280 mg/kg (rat) Skin irritation or corrosion:	cation: Generally the product does not irritate the skin.

Revision: 29.10.2008

Safety data sheet according to 1907/2006/EC, Article 31

Printing date 01.07.2013

Trade name *Methyl 4-hydroxybenzoate* (Contd. of page 2) Reproductive toxicity: No effects known. Specific target organ system toxicity repeated exposure: No effects known. Specific target organ system toxicity - single No effects known. exposure: piration hazard: No effects known. To the best of our knowledge the acute and chronic toxicity of this substance is not fully known. Additional toxicological information: **SECTION 12: Ecological information** 12.1 Toxicity Aquatic toxicity: 12.2 Persistence and degradability 12.3 Bioaccumulative potential 12.4 Mobility in soil No further relevant information available No further relevant information available. No further relevant information available. No further relevant information available. Additional ecological information: Do not allow material to be released to the environment without proper governmental permits. Water hazard class 1 (Self-assessment): slightly hazardous for water. Do not allow undiluted product or large quantities of it to reach ground water, water bodies or sewage system. General notes: Avoid transfer into the environment. 12.5 Results of PBT and vPvB assessment PBT: Not applicable. vPvB: 12.6 Other adverse effects Not applicable. No further relevant information available. SECTION 13: Disposal considerations 13.1 Waste treatment methods Hand over to disposers of hazardous waste. Must be specially treated under adherence to official regulations. Consult state, local or national regulations for proper disposal. Recommendation Uncleaned packagings: Recommendation: Disposal must be made according to official regulations. SECTION 14: Transport information UN-Number ADR, IMDG, IATA None 14.2 UN proper shipping name ADR, IMDG, IATA None 14.3 Transport hazard class(es) ADR, IMDG, IATA Class None Packing group ADR, IMDG, IATA None 14.5 Environmental hazards: Not applicable 14.6 Special precautions for user Not applicable 14.7 Transport in bulk according to Annex II of MARPOL73/78 and the IBC Not applicable. Code Transport/Additional information: Not dangerous according to the above specifications. SECTION 15: Regulatory information 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture Australian Inventory of Chemical Substances Standard for the Uniform Scheduling of Substance is listed. Drugs and Poisons National regulations Substance is not listed. Information about limitation of use: For use only by technically qualified individuals. Water hazard class: Other regulations, limitations and prohibitive Water hazard class 1 (Self-assessment): slightly hazardous for water. Although this chemical may sometimes be used as a food or drug or cosmetic, our products are not approved or suitable for such use or for human consumption. regulations **ELINCS (European List of Notified Chemical** Substances) Substances of very high concern (SVHC) according to REACH, Article 57 REACH - Pre-registered substances 15.2 Chemical safety assessment: Substance is not listed. Substance is not listed. Substance is listed. A Chemical Safety Assessment has not been carried out. SECTION 16: Other information

Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.

Department issuing data specification sheet: Abbreviations and acronyms: Health, Safety and Environmental Department. Abbreviations and acronyms: Health, Safety and Environmental Department. Transport of Dangerous Goods by Raill IATA-DGR: Comparization ICAO-TI: Technical Instructions by the "International Civil Aviation Organization" (IATA) ICAO-TI: Technical Instructions by the "International Civil Aviation Organization" (ICAO) ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road) IMDC: International Maritime Code for Dangerous Goods IATA: International Air Transport Association GHS: Globally Harmonized System of Classification and Labelling of Chemicals EINECS: European Inventory of Existing Commercial Chemical Substances CAS: Chemical Abstracts Service (division of the American Chemical Society) LC50: Lethal dose, 50 percent
